

GREY

Although black is back this season, a softer alternative to this sometimes harsh shade is grey. Wear with this season's colours of red, pink or green, or layer different shades of grey on tailored pieces for a modern look.

GEOMETRY

The formula for instant autumn style is to take a leaf out of your own geometry book and embrace the angles. And with 60s and 70s styles making a comeback, this look should make you top of the class when it comes to style well into next year.

WINTER FLORALS

Flower power is never off the fashion radar and this autumn and winter florals once again reveal their dark side. Think brightly coloured florals on black, metallic floral embellishments and tapestry floral jackets. Wear with plain neutrals to tone the look down or match your floral top to your bottoms for a look reminiscent of the summer.

CAPES

Part of the Cocoon collection at Norwich Fashion Week 2014, and seen in the autumn/winter collections from Valentino, Daks, Bora Asku, Todd Lynn and Alexander McQueen, the cape is tipped to be the key piece of clothing this autumn. Wear over a polo neck jumper and skinny jeans or cigarette style trousers, or over a neat shirt dress.

PINK

Last year it was all about the pink coat. This year pink can be seen on everything from tops and jackets to trousers and jewellery. However, the must-have pink piece is the knitted jumper. Whether you liked cropped styles or baggy oversized numbers, if it is pink it is a winner.

THE MINI BAG

Just as skirt lengths tend to go up and down, the bag also changes its appearance from large, roomy handbags to small box bags that can just about hold your money and mobile. This autumn is all about the mini bag, so it's time to have a declutter. However, if you cannot fit everything you need into this new style bag, why not do as designer Balenciaga does and accessorise your look with three bags instead of one?
